Search for anything

OpenSearch Documentation

Learn to use OpenSearch, the highly scalable and extensible open-source software suite for search, analytics, observability, and other data-intensive applications.

[Contribute >](#)

OpenSearch and OpenSearch Dashboards

All documentation

Build your OpenSearch solution using core tooling and visualizations.

[Documentation →](#)

Vector search

Use vector database capabilities for more relevant search results.

[Documentation →](#)

Machine learning

OpenSearch Dashboards

Power your applications with machine learning model integration.

[Documentation →](#)

Explore and visualize your data using interactive dashboards.

[Documentation →](#)

Supporting tools

Data Prepper

Filter, mutate, and sample your data for ingestion into OpenSearch.

[Documentation →](#)

Clients

Interact with OpenSearch from your application using language APIs.

[Documentation →](#)

OpenSearch Benchmark

Measure OpenSearch cluster performance metrics.

[Documentation →](#)

Migration Assistant

Simplify your upgrade or migration to OpenSearch.

[Documentation →](#)
